

The Clarifier

JIG Announces Acceptance of CDFX

The Long Wait Is Over!!!

The Joint Inspection Group recently announced that they have completed their final round of field trials of our EI-1588 2nd Edition qualified Water Barrier Filter and have written CDFX into their operating standards.

Rob Guglielmi, Parker Velcon Business Development Manager said: *“It has been a long, long road to get to this point, but we are pleased to be able to offer a superior technology that will help get SAP out of fueling systems.”*

Lewis Wolfe, Parker Velcon Engineering Manager is proud of the work that he and his Team has put into the development of CDFX. *“Today, aviation fuel is a little cleaner and drier without using SAP. CDFX is the most tested and proven into-plane filtration technology ever developed”*, said Wolfe on JIGs announcement.

Please see [JIG Bulletin 147](#) for complete details.

- CDFX is the latest innovative technology in aviation fuel filtration.
- CDFX is a Water Barrier Filter; IT REPELS WATER IN AVIATION FUEL SO **WATER DOES NOT GO ON-BOARD AIRCRAFT.**
- CDFX is qualified to EI-1588 2nd Edition.
- CDFX was approved for use by A4A in January 2022. See [A4A Bulletin-2023-1](#) WBF Experience in North America.
- CDFX is ready to install before the JIG deadline of July 1, 2023

For complete product information on the Parker Velcon 2” CDFX Water Barrier filter, please see brochure for further details [CDFX Data Sheet](#)
